

The Entryway Model

REFERRAL

Local referring partners recommend qualified individuals at risk of or experiencing situational homelessness to Entryway who are interested in pursuing positions with the apartment industry.

SCREENING

Entryway's intake team and the local Executive Director conduct a background check and interview the applicant for suitability.

TRAINING

The participant receives training on skills required for employment, as well as soft skills and financial literacy. In addition, Entryway trained volunteers provide resume and interview coaching.

HIRING

Entryway refers trained participants to industry partners for employment opportunities and housing. Our partners interview them for available positions in their communities.

SELF-SUFFICIENCY

Hired participants are put on a pathway to economic self-sufficiency with full-time employment, discounted housing, and continued career training. Entryway remains involved to help them through the transition.
